## Hannover Airport relies on ZIEGLER technology

Major order for 5 Airport Firefighting and Rescue vehicle and one roll-off container

Giengen, October 2023 – ZIEGLER receives the order to deliver a total of five Airport Firefighting and Rescue vehicles (ARFF) and one roll-off container to the airport of Hanover. The order includes three ARFF of type Z6, two ARFF of type Z4 and one “AB-Lösch” roll-off container by ZIEGLER.

ZIEGLER, with decades of experience in developing and manufacturing firefighting technology and firefighting vehicles, is proud to be able to contribute to the protection of Hannover Airport. The company's proven ARFF vehicles are equipped with first-class “State of the Art” technology and comply with internationally applicable safety standards – the vehicles will therefore play an essential role in security at Hannover Airport.

“We are very pleased about this order and thankful for the trust that Hannover Airport has placed in ZIEGLER. Our vehicles are designed for maximum efficiency, performance and safety and will take the protection of passengers and employees to a new level”, says Marcus Kulick, area sales manager at ZIEGLER.

Of course, the new vehicles are equipped with the tried and tested ZIEGLER extinguishing technology and the latest generation of Z-Control. The spacious driver/crew cabin “Z-Cab AiR” (tested according to ECE R29-3) offers a headroom of 1,80 m, the best all-round visibility and a workplace for the operating personnel that has been developed according to the latest ergonomic aspects. All relevant standards are of course met and even exceeded in many areas.

The vehicles will be delivered to the customer in the years 2024 and 2025.

The technical data of the vehicles can be found on the next page.

## Technical data

Z4

<b>Basic information</b>	Vehicle type	Z4
	Customer	Hannover Airport
<b>Chassis</b>	Type	TITAN T26-770 4x4
	Engine/Performance	Scania DC16 386, V8 cylinder 556 kW / 770 HP
	Emissions standard	Stage V
	Transmission	Kessler LV3000 PTO
	Perm. total weight	26,000kg
	Dimensions L x W x H	10,000 x 3,000 x 3,750 mm
	Cabin/crew	Z-Cab AiR, crew 1+2
	Water tank	6,000 liters
	Foam tank	400 liters
	Pump	ZIEGLER FPN 10-8000-1M
	Turret	Roof turret ZT-6000 Lowerable front turret ALCO APF 3
	Proportioning system	ZIEGLER EAD
	<b>Adjustments</b>	Special equipment
